---

# Free Cooling for Department Store Project

*Hushon UK supplied four 200KW “Plug & Play” Air to Air Heat Pump Packaged Rooftop Units, with “FREE” cooling Economiser section, multiple scroll compressors and built in control package.*

*Working with the mechanical design consultant, Hushon selected these units based on the high efficiency and Free cooling feature offered with the Economiser section.*

*The crane lift took place early on a Sunday morning by one of the largest mobile tower cranes in Europe, four old rooftop units were removed and replaced with the four new units, all within 3 hours.*
