The indoor unit prices shown are the total retail price for the 2, 3 or 4 indoor units required for that particular combination. The total retail price includes 1 x RBC-AMT32E remote controller and the branch pipe kit (triple systems only). Accessory price breakdown available on page 241 to page 246. If the outdoor units are used as part of a twin-split, then restrictions on pipe lengths apply. Please consult the technical manual for full technical specifications.
